---

## OBJECTIVE

---

Becoming a Secondary school teacher in the TAS department

---

---

## SKILLS

---

Major in Industrial Technology Timber, minor in Food Technology and Computing

---

---

## EXPERIENCE

---

### PRACTICUM PLACEMENT

03/06/2024 – 21/06/2024

During my first placement, I undertook one week of observation to gain understanding of various teaching methods in different subject areas and how to manage student behaviour. The remaining two weeks I was teaching five to six lessons and implementing behaviour management strategies I observed to develop my own teaching pedagogy.

### PRACTICUM PLACEMENT

28/10/2024 – 15/11/2024

During my second placement I spent the first three days observing teaching methods. The remainder of the three weeks I was teaching seven to nine (minimum 2 a day) lessons. This allowed me to plan, implement, and analyse my teaching style and time management.

### PRACTICUM PLACEMENT

23/06/2025 – 25/06/2025

During my third placement, I spent the first three days observing teaching methods. The remainder of the three weeks I had an 80% teaching load (minimum four lessons per day). This allowed me to plan, implement, and analyse my teaching style and time management.

## EDUCATION

---

### BACHELOR OF EDUCATION (SECONDARY)/BACHELOR OF ARTS (DESIGN INNOVATIONS AND TECHNOLOGY)

Australian Catholic University

I began studying in 2023; after graduating high school in 2022, I will graduate with a double degree in education and arts in 2026. I have maintained a high credit/distinction throughout university and have remained engaged and enthusiastic in becoming a teacher.
